

ICEEIT 2022

Conference Program

On behalf of the steering and organizing committees, we welcome you to the 3rd International Conference of Electrical Engineering and Information Technology ICEEIT 2022, Benghazi, Libya. This conference is held by college of electrical and electronics Technology- Benghazi, and it is organized jointly by:

1. College of Electrical and Electronics Technology- Benghazi Libyan
2. International Medical University
3. University of Benghazi
4. The Arab-German Young Academy of Sciences and Humanities (AGYA)
5. Libyan, Authority of Natural Science Research and Technology
6. Tatweer Research.

ICEEIT 2022 is a forum for scientists, engineers, and practitioners to present their latest research, results, ideas, developments, and applications in all areas of Electrical Engineering and Information Technology. The conference program exhibits exciting presentations to contributed papers and state-of-the-art lectures by invited keynote speakers.

ICEEIT 2022 Tracks

- Track 1: Power Systems
- Track 2: Artificial Intelligence
- Track 3: Telecommunication
- Track 4: Software Engineering
- Track 5: Health Informatics
- Track 6: Security & Computer Networks

SUNDAY, October 30, 2022		
08:00 - 14:00	Registration @ Main Hall , College of Electrical and Electronics Technology & online	
09:00 - 09:45	Opening and Welcome @ Room1 and Online	
09:45 - 10:30	Keynote speaker: Dr. Lobna Said School of Engineering and Applied Sciences, Department of Electrical Communication	Title: From the fundamentals of fractional calculus to applications in electrical engineering
10:30 - 11:15	Keynote speaker: Dr. Nada El Darra Faculty of Health Sciences, Tarik El Jedidah, Beirut	Title: Decontamination of spices using a hurdle technology
	Coffee Break
