Presentation Number: 319.01

Presentation Title: Effects of food maternal restriction on palatable food consumption of the offspring in preadolescence and adulthood in rats

The Society for Neuroscience (SfN) is a nonprofit membership organization of basic scientists and physicians who study the brain and nervous system. The Society's primary goal is to promote the exchange of information among researchers. For this purpose, SfN holds a prestigious annual meeting, attended by scientists and researchers from around the globe. It is considered the most important annual forum for the neuroscience research community, offering attendees the opportunity to learn about the latest advances in brain research and to meet and network with their colleagues at top destinations throughout the United States.

Sincerely,

Kyle Hayden, CMP
Director, Meeting Programs and Attendee Services
Society for Neuroscience
